CordLift WireFree™ Visual Reference Guide
## CT32-RT-12: Pleated and Cellular Shades

STEP 1
To initiate programming press and hold both the ∧ (**Up**) and ∨ (**Down**) buttons at the same time until the shade jogs.

### STEP 2
Check the direction of operation. Press and hold the ∨ button and confirm the shade moves in a down direction (shade will operate only when button is held).To change the direction press and hold the my (**Stop**) button until the shade jogs.

STEP 3
Bring the shade to your desired lower limit. Press and hold both the my and ∧ buttons until the shade begins to move up, then release. Stop the shade where the upper limit should be set, you can adjust by pressing the ∧ or ∨ buttons.

STEP 4
Bring the shade to your desired upper limit. Press and hold both the my and ∨ buttons until the shade begins to move down, then release. Stop the shade where the lower limit should be set, you can adjust by pressing the ∧ or ∨ buttons.

STEP 5
Press and hold the my button until the shade jogs to confirm the limit setting.
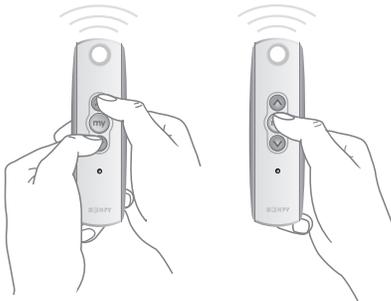

STEP 6
Press and hold the **Program** button on the back of the transmitter until the shade jogs. (Shade is now programmed and once operated will travel to its end limits.)

Programming Button

NOTE: Steps 3 and 4 may be reversed depending on initial position of shade.

TO ADJUST LIMITS
To change the lower limit: Move the shade to its current lower limit position and let it stop. Press the ∧ and ∨ buttons simultaneously until the shade jogs, then release. Adjust to a new lower limit position. Press the my button until the shade jogs, then release. Check new limit.

To change the upper limit: Move the shade to its current upper limit position and let it stop. Press the ∧ and ∨ buttons simultaneously until the shade jogs, then release. Adjust to a new upper limit position. Press the my button until the shade jogs, then release. Check new limit.
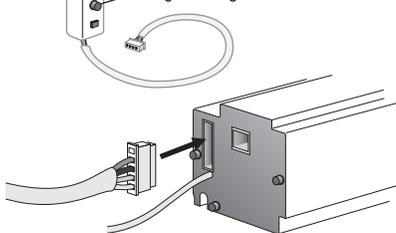

TO ADD A REMOTE/CHANNEL
First press the programming button on the back of the already programmed remote until the shade jogs. Then press the programming button on the new remote or channel that you would like to add until the shade jogs. Check it.

Programming Reset Tool — Programming Button

TO RESET THE MOTOR
Insert reset tool into connector on motor. **To delete all transmitters**, press and hold the program button located on the reset tool for 7 seconds. Release the programming button after the LED starts flashing. The shade jogs one time. The transmitters are deleted but the limits remain in memory. **To delete all previous settings** press and hold the program button located on the reset tool (approximately 12 seconds) until LED blinks rapidly then extinguishes. Shade is now reset to factory mode and shade limits will need to be reset.

Please contact SOMFY for detailed installation instructions
