Note - Both P2 buttons
are the same.

Back side of the remote

## ADJUST THE BOTTOM LIMIT WHEN NEEDED!

To avoid the controlling cords tangled inside the shade, adjust the bottom limit to fit your window height when needed. This will ensure that the cords have the right tension when you raise or lower the shade. Additionally, by adjusting the bottom limit, you can be sure that the shade is the right length for your window.

Follow the instructions below.   NOTE. DO NOT USE A PIN OR A NEEDLE TO PRESS THE P2 BUTTON. IT MAY DAMAGE THE P2 BUTTON.

ADJUST THE BOTTOM LIMIT to fit your window height
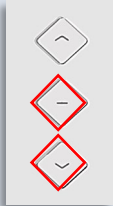

|	
	Step 1. Press the **STOP** and **DOWN** buttons for about 5 seconds until the shade jogs once. **JOG x 1**
	Step 2. Use the remote to control the bottom rail to fit your window height.
	Step 3. Press the **STOP** and **DOWN** buttons for about 2-3 seconds until the shade jogs twice. **JOG x 2**
	Adjust the bottom limit is done.

Option to set up "MY FAVORITE POSITION" if you prefer, simply follow the instructions below. Once you have set it up, you will be able to quickly access your preferred position with just the press of the STOP button.

PROGRAMMING FOR MY FAVORITE POSITION
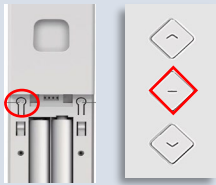

| **Set Up My Favorite Position**	Step 1. Raise the shade all the way up by clicking the **UP** button. Skip this step if the shade is already at the top position.
	Step 2. Adjust the bottom rail to your favorite height by clicking the **DOWN** or **UP** buttons.
	Step 3. Click either one of the **P2** buttons. The shade jogs once. **JOG x 1**
	Step 4. Click the **STOP** button once. The shade jogs once. **JOG x 1**
	Step 5. Click the **STOP** button again. The shade jogs twice. **JOG x 2**
	My favorite position set up is done.
Remove My Favorite Position	Step 1. Click either one of the **P2** buttons. The shade jogs once. **JOG x 1**
	Step 2. Click the **STOP** button once. The shade jogs once. **JOG x 1**
	Step 3. Click the **STOP** button again. The shade jogs once. **JOG x 1**
	Remove My Favorite Position is done.

Additional Programming Instructions (optional setup)

ADJUST THE TOP LIMIT
	Step 1. Press the **STOP** and **UP** buttons for about 5 seconds until the shade jogs once. **JOG x 1**
	Step 2. Use the remote to control the shade to the desired upper position.
	Step 3. Press the **STOP** and **UP** buttons for about 2-3 seconds until the shade jogs twice. **JOG x 2**
	Adjust the top limit is done.

LOCK/ UNLOCK 3 FRONT BUTTONS to prevent resetting the top and bottom limits

LOCK	Step 1. Press the **STOP** button for about 15 seconds (the LED light will flash, off, flash, off, and remains on). Only release it when the LED light remains on.
	Note: If you have set up "my favorite" position, then the shade will move to that position during this process.
	Step 2. Click one of the **P2** buttons once. The LED will flash slowly.
	The lock setup is done.
UNLOCK	Process the step 1 and step 2 above. Then the LED light will flash quickly. **The unlock setup** is done.

ADD/ REMOVE A DUPLICATED REMOTE CONTROL

| ADD | Step 1. Click one of the **P2** buttons once on the existing remote. The shade jogs once. | JOG x 1 |
	Step 2. Click the same **P2** button again. The shade jog once.	JOG x 1
	Step 3. Click one of the **P2** buttons on the new remote. The shade **jog**s twice.	JOG x 2
Remove	Process the step1 to 3 above to remove the remote.	

REVERSE THE MOTOR DIRECTION

P1 motor receiver button

| Step 1. Press the **P1** button until the shade jogs 3 times (about 10 seconds). | JOG x 3 |
| NOTE. The **P1** button is at side of the motor. | |
